(4:55:46) – Chairperson Thompson introduced the item and referenced the agenda materials. During discussion on the item, Chairperson Thompson recommended supporting the item as written, with which

Member Green agreed and commented that “it’s just getting so out of hand” in regards to the expanding populations of free-roaming feral horses and burros.

(5:47:30) – Member Boehmer was concerned about the labeling of “[thriving] natural ecological balance” in Commission Policy 67 not being defined because advocacy groups may “run with that and misconstrue that, . . . and could tie a lot of action, any action that would be worthwhile action, could tie that up for just indefinitely to where it’s too late.” He wished to have the Nevada Board of Wildlife Commissioners acknowledge that the carrying capacity changes all the time and “the more horses, the more damage is done, that carrying capacity goes down.” He also stated that there needed to be a management plan in place in order to gather enough data and pointed out that the numerical information was not accurate with consideration to the current tolls. Chairperson Thompson agreed with Member Boehmer’s input. Member Boehmer suggested challenging the data to be accurate, inquiring about what is being done to obtain accurate data, and prompting consideration of a management plan, and Member Stewart that there should also be clarification on what the management plan is. Member Stewart commented that there did not seem to be a plan from any agency at this point to do something about the matter.

(5:06:09) – Commissioner Boehmer moved to support item 7-C with the concerns as articulated during discussion. The motion was seconded by Member Stewart and carried 4-0-0.

The Commission will also consider rules regulating public hunting on Wildlife Management Areas and designated state lands.*

(5:06:42) – Chairperson Thompson introduced the item, and discussion ensued, during which the agenda materials were referenced.

(5:18:51) – Chairperson Thompson recommended a motion to support item 7-D with the additions to “ensure that we’re going to whatever [the] end date is set by the feds [so] that we’re utilizing the entire season, second that we look at eliminating the break in season, and then the potential of starting later or not corresponding with the opening of upland.”

(5:19:26) – Member Boehmer so moved. The motion was seconded by Member Stewart and carried 4-0-0.
