

## Time as a Public Health Control Procedure (TPHC)

(For Potentially Hazardous Foods)

**Once time is used as a control, food may not be later returned to temperature control.** It must be discarded. Therefore, foods may not be refrigerated, reheated, or placed in a warmer for later.

Establishment Name:
Manager Signature / Date:
<b>Identify the Applicable Foods</b>
<b>Describe when the 4-hour period will start.</b>
<b>Describe how the food will be marked or otherwise identified with the discard time</b>
<b>Describe how the food(s) that are unmarked or past the 4 hours will be handled.</b>
